

BUSINESS ANALYST

Analytical professional with hands-on experience designing KPI dashboards, performance databases, and reporting tools that support data-driven decision-making in high-volume manufacturing and logistics environments. Combines coursework in statistical modeling and quantitative finance with practical experience improving data accuracy, operational efficiency, and productivity through Excel, Tableau, and Power Apps.

EDUCATION

Wake Forest University School of Business, Winston-Salem, NC

Master of Science in Business Analytics

May 2027

Georgia Highlands College, Cartersville, GA

Bachelor of Business Administration, Logistics & Supply Chain Management

May 2026

AREAS OF EXPERTISE

Data Visualization | KPI Development | Process Improvement | Database Management | Performance Reporting | Cross-Functional Collaboration | Problem-Solving | Time Management | Leadership | Business Communication | Root Cause Analysis | Process Documentation | Quantitative Analysis | Data Driven Decision Making | Trend Analysis

TECHNICAL SKILLS

Data Analysis & Visualization: Excel (Data Analysis, KPI Development, Pivot Tables), Tableau, Jupyter Notebook

Applications & Platforms: Microsoft Power Apps, Database Management, Google Workspace, SharePoint

PROFESSIONAL EXPERIENCE

PROCESS IMPROVEMENT CO-OP | **Shaw Industries** | Dalton, GA

January 2026 – July 2026

- Designed and maintained an Excel-based KPI dashboard tracking daily and weekly operator productivity across 3 shifts, enabling supervisors to monitor performance and make data-driven decisions
- Developed a weekly performance reporting tool used by supervisors to communicate individual productivity metrics and identify improvement opportunities
- Built and maintained a database system to track employee incentive qualification metrics, monthly reward costs, and performance outcomes for a newly implemented productivity program
- Evaluated operational performance data and incentive program effectiveness, contributing to a 5.7% increase in average CPMH within 4 months

LOGISTICS CO-OP | **Shaw Industries** | Calhoun, GA

June 2025 – December 2025

- Engineered a custom Power Apps application to track and timestamp associate activities in real time, strengthening data accuracy and reporting reliability across daily operations
- Conducted a time-motion study assessing how long utility associates took to unload trucks, restock shelves, locate and load outbound products, applying findings to streamline workflows and improve daily operational efficiency
- Executed a receiving time study to evaluate performance against pallets-per-hour benchmarks following implementation of a new process, identifying a 35% increase in workforce productivity

ADDITIONAL EXPERIENCE

Shaw Industries – LTO Driver, October 2023 – May 2025 | **Chick-fil-A Supply** – June 2022 – August 2023

ANALYTICAL PROJECT EXPERIENCE

Toyota Financial Statement Analysis: Analyzed Toyota Motor Corporation's fiscal year 2024 income statement, balance sheet, and cash flow statement to evaluate revenue trends, profitability, and overall financial health. Calculated key liquidity, solvency, and profitability ratios in Excel to benchmark year-over-year performance and presented findings and recommendations via a formal PowerPoint presentation.

HONORS & CERTIFICATIONS

- Foundations of Data Science, Google June 2026
- Finance & Quantitative Modeling Certificate, Wharton School, University of Pennsylvania January 2026
- President's List - Spring 2025 & Spring 2026
- Dean's List - Spring 2024, Fall 2024 & Fall 2025
